Professional Summary

Final-year Computer Science student (CGPA 9.44) with expertise in **Java**, **JavaScript (ES6+)**, **React.js**, **Node.js**, **Express.js**, **MongoDB**, and **WebSockets**. Led a team project during the **IIT Hyderabad Full-Stack Development Workshop**, building a **scalable real-time ride-booking application**. Founder of **Traxigo Ride Booking App**, integrating **Google Maps API** and improving **ride-matching efficiency by 35%**. Strong foundation in **Data Structures & Algorithms**, with certifications in **Databases**, **Web Development**, and **Artificial Intelligence**.

Education

KL University, Bachelor of Technology (B.Tech) in Computer Science | May 2026

CGPA: 9.44 | Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Object-Oriented Programming, Operating Systems, Computer Networks

Narayana College | 12th | **Percentage:** 96.6% | April 2021

Narayana School | 10th | **GPA:** 10/10 | May 2019

Skills

- **Programming Languages:** Java, JavaScript (ES6+), C, Python, Structured Query Language
- **Frontend Development:** React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Redux, TypeScript
- **Backend Development:** Node.js, Express.js, REST APIs, WebSockets, Authentication & Authorization
- **Databases:** MongoDB, MySQL (Database Design, Query Optimization)
- **Tools & Others:** Git, GitHub, Postman, Google Maps API, Agile, Scrum, CI/CD

Experience

Full-Stack Development Workshop | IIT Hyderabad | Team Lead | [Verified Credential](#)

- Developed and deployed a ride-booking application with WebSockets for real-time ride requests, improving system responsiveness by 35%.
- Applied full-stack development principles in a practical setting under Skilligence EdTech, enhancing hands-on experience with real-time systems.

24-Hour College Hackathon | Team Lead | [Verified Credential](#)

- Collaborated with a team to design and develop a full-stack blogging website in 24 hours using React.js and Node.js.
- Implemented core features such as user authentication, post creation, and real-time content updates.
- Contributed to both front-end and back-end, ensuring scalability and smooth user experience.

Projects

Traxigo – Ride Booking App | Founder & Full-Stack Developer | [GitHub](#)

- Engineered a real-time ride-matching system that improved request-to-acceptance efficiency by 35% through optimized WebSocket event handling.
- Implemented Google Maps API for live geolocation and rider-captain interaction.
- Designed and developed a user-friendly captain and rider interface, streamlining the booking process and improving overall usability and satisfaction.

Online Blogging Platform | Team Lead | [GitHub](#)

- Created a user-friendly system that enabled writers to draft, edit, and publish blogs seamlessly.
- Structured the backend with Node.js and Express.js to handle requests efficiently and maintain smooth operations.
- Connected MongoDB for secure storage and fast retrieval of blog content.

Certifications

[Introduction to Databases \(Coursera\)](#) | [Web Development Bootcamp \(Udemy\)](#) | [Introduction to Artificial Intelligence \(Coursera\)](#)

Achievements

- **Qualified JEE Mains & Advanced (2021, 2022)** with strong **problem-solving** and **quantitative skills**.
- Engaged in **24-hour hackathons** and **full-stack workshops**, gaining **collaboration** and **system design experience**.
- **Built web applications** with **modern technologies**, applying skills to solve practical challenges.
